

# European Shot Peening and Blast Cleaning Workshop

**March 24 - 25, 2009**  
**Sinsheim, Germany • Hotel Sinsheim**

**FAA Accredited Program • Partner in Education with Nadcap**

Since 1990, Electronics Inc. has conducted workshops in North America, Asia and Europe for people like you—people that want intensive training in one of the most enjoyable and productive formats available. This training workshop is a comprehensive program that covers all aspects of shot peening and blast cleaning including techniques and applications. Our professional instructors demonstrate what the process is, how to do it correctly and how to inspect the completed product. An emphasis on equipment and its maintenance is included as well as the selection and quality control of media. This workshop also provides a unique opportunity to meet with your peers and industry experts.

**The workshop will be conducted in English. A translator will be available to answer questions and a concentrated review in German will be provided for certification exam preparation.**

**Our workshop will cover:**

- **Advanced Shot Peening Classes New!**
- discussion on machines, nozzles, media, job shop services and more
- controlling the process through media, intensity, coverage and equipment
- shot peening procedures as required by applicable specifications
- plotting a saturation curve to determine intensity
- establishing proper machine parameters
- proper paperwork processes and record keeping
- preparing for an audit, including Nadcap audits
- spotting a machine malfunction
- machine maintenance
- flapper peening
- the newest processes from around the world
- Certification Exams I, II, III and Flapper Peening Exam

**A registration form is included on back of this flyer. For more information, contact Electronics Inc. Education Division at +1-574-256-5001 or visit [www.electronics-inc.com](http://www.electronics-inc.com)**
